

Instructing Payments Without a PayPal Account

PayPal payments are not only limited to users who are currently registered on the platform.

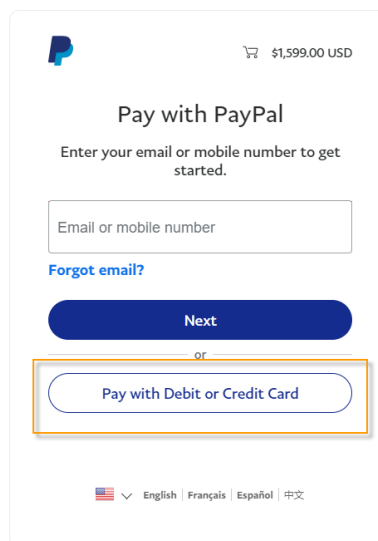

Although it is quick and easy to set up an account, if you do not have a PayPal account and need to make a quick or urgent payment, having to sign up for PayPal could potentially be a bottleneck.

This is likely why the financial service allows anyone with a credit or debit card to pay as a guest, this way you will not need to create an account to pay outstanding invoices or online product fees.

If you do not have or cannot register for a PayPal account and expect that you may have to make payments via the service, then you could find the following steps useful:

1. Click “Pay with Debit or Credit Card”

- a. Enter your email address
- b. Click Continue to Payment

The screenshot shows the PayPal payment interface for a guest. At the top left is the PayPal logo, and at the top right is a shopping cart icon with the amount "\$1,599.00 USD". The main heading is "Pay with PayPal". Below this, it says "Enter your email or mobile number to get started." There is a text input field labeled "Email or mobile number". Below the input field is a link that says "Forgot email?". There are two buttons: a blue "Next" button and a white button with a blue border labeled "Pay with Debit or Credit Card", which is highlighted with a yellow box. At the bottom, there is a language selection menu showing "English", "Français", "Español", and "中文".

2. Entering your card details

- a. Without a PayPal account, you will only be allowed to use the following payment options: **debit card** and **credit card**.

3. Confirmation

- a. Once you have reviewed all the payment information, you can then proceed with the payment.

You will then be notified via email (check your spam inbox if you do not see the receipt in over 10 minutes after the payment was made).
